I have some stuff for the Suiton's Drive owner :3

1. This set doesn't yet exist in the Drive:

<https://ufile.io/fpuu8>

2. This one now has a HQ version shared:

<https://e-hentai.org/g/1252400/2f7b888c0b/> or <https://ufile.io/ij3mu>

3. And we're still missing some stuff, here's what I think is a complete list:

a. Conquering fears :: <https://www.patreon.com/posts/p-7180624> (hq version)

b. Yuri!!! on Ice - Victor X Yuri :: <https://www.patreon.com/posts/p-6961773>

c. A Day on the Beach :: <https://www.patreon.com/posts/p-3441388>

d. First Year Boy :: <https://www.patreon.com/posts/p-4196156>

e. FYG #2 - Red is better :: <https://www.patreon.com/posts/p-4387440>

Here's a list of ones I believe haven't been shared. A couple might still be missing. "CG" at the end means it's a full CG set, "V" just means it was a special image that his Patreon said is supposed to have 1 or more variant images and isn't a full set.

the Chat Noir & MHA ones haven't been released yet.

"A Day on the Beach" is tagged as a CG set on his patreon post, though. And as for the images with special variants for patrons, is there even a way to get those?

You're reading my mind, anon. I've been experimenting with different hostings for the updater too (primarily to bypass a 64K limit of the "house"), and also considered making a neo mirror/version. Guess it's a good time to make this link public:

<https://yupdates.neocities.org/>

I'm not giving up on htmlhouse page, though - extra redundancy always helps. For now neo page is a one-to-one mirror, but it might get some extra features in future, we'll see.

Also, this is the artists drive folder, check the damn thing to see if it's been uploaded there instead of wasting time complaining about links down because it's likely gonna eventually be put there (unless otherwise stated).

The only things that occasionally get deleted are the Drives themselves, aren't they?

I still created a Discord, if you want to join, feel free to do so, if not ... not. We'll see how it evolves.

If the maintainer of the updates page wants to join too, DM me or post some kind of proof (maybe put your Discord tag on the updates page), I'll give you a special flair.

I am sorry, but what exactly did this post (>>2545456) add to the discussion?

The fact that there is an inferior version of this work somewhere on the Internet?

There are helpful people here. The person who actually pays for these works and shares them for free is no doubt helpful.

I'd argue that anons making copies on trusted resources like E-H are helpful as well, as there is never enough backups for what is essentially a pirated content.

But this? What exactly is helpful in sharing a link to a website that only allows you to see scaled down, poorly compressed versions of the work? In my opinion, sharing nothing is better than sharing this.

No one really shares thief stuff. One dude was cool enough to share the Star-Lord and Thor things once but he said that he was only doing it once and temporarily because apparently the creator is active about stopping people from doing so. I'm not sure I've ever seen anything from them other than that one time
